## Summary

Experienced Web Developer with a strong understanding of JavaScript and React, proficient in developing responsive websites and applications using HTML/CSS, Bootstrap, and MySQL. Proficient in leveraging AI technologies to enhance automation, user interaction analysis, and personalization of user experiences. Recently completed a Full stack CRUD application project using React, Express, Node.js, and MySQL, showcasing expertise in building scalable and interactive web solutions. Currently seeking a challenging position that allows me to utilize my skills and experience to contribute to a dynamic team.

## Technical Skills

---

- JavaScript
  - React
  - Basic Express
  - HTML/CSS
  - Bootstrap
  - Basic MySQL
  - Basic NodeJS
  - Git/GitHub
  - Visual Studio Code
  - Wix, WordPress, Canva, Figma
  - VM Software
  - AI Tools: Github Copilot
- 

## Projects

- Developed a Full stack CRUD (Create, Read, Update, Delete) task management application using React, Express, Node.js, and MySQL. Implemented features allowing users to create, rename, update, and delete tasks, providing comprehensive task management functionality. The application offers seamless interaction, enabling users to efficiently manage their tasks and enhance productivity.
- Developed a basic login page using HTML/CSS for class project
- Developed a basic email template using HTML/CSS and Bootstrap
- Developed a landing page and a sign-up page using HTML/CSS and Bootstrap to simulate a better UI experience
- Developed an API project using vanilla JavaScript, React, HTML and CSS using a GET request through an asynchronous function which made requests to a super hero API
- Developed websites using Wix, WordPress and Canva

## Experience

### **Web Developer Intern, Bay Valley Tech Code Academy – 2022 – Present**

- Collaborated with two other interns to design a project management App using Figma
- Developed a React Info site using React, Vite, JavaScript, HTML and CSS
- Developed an AirBNB clone site using React, Vite, JavaScript, HTML and CSS
- Developed an API based meme generator app using React, Vite, JavaScript, HTML and CSS
- Two plus years developing responsive React applications

### **Battery Technician, Pape Material Handling – 2022 – Present**

- Diagnose, repair and service forklift batteries
- Maintain contact with customers and address their needs using a ticket support system
- Provide excellent customer service and serve as the main point of contact
- Provide on-site repairs of customer equipment
- Ensure repairs are done correctly and in a timely manner
- Use of heavy equipment and Windows based laptop to perform daily tasks and maintenance
- Take initiative in several projects

### **Education**

#### **Bay Valley Tech Code Academy – 2022 – Present**

#### **Laney College – Liberal Arts**
